

Sharon Fitzcoy

February 27, 2016

Sharon was a Senior Biological Scientist at the University of Florida. She loved to expose young students to the world of aquatic insects. She maintained that it was imperative for the youth and the wider scientific community to understand the value of the fresh water environment and its importance to the eco-system. Her commitment to work was carefully balanced with her devotion to her family. Her magnetic personality and infectious smile made it easy for her to interact with and meet new people. She is survived by her husband Norman Fitz-Coy, two sons Aric and Damek, a stepson Badyr, brother Donovan, sisters Pamela, Christine, Carole and Maureen (Pat). Her aunts, uncles, cousins, nephews, nieces, in-laws, and life-long friends will mourn her loss. A mass of thanksgiving for the life of Sharon will be held on Saturday, March 12th at 11:00am at the Servants of Christ Anglican Church, 3536 NW 8th Ave, Gainesville, FL 32605, Rev. Ted Griswold, Officiating. Interment will follow in Forest Meadows Memorial Park Central. Mrs. Fitz-Coy will repose on Friday in the Chestnut Memorial Chapel from 2:00-7:00 pm.
